

I would like to register my opposition to the proposal to allow LPFM stations to take priority over the current FM translator services.

National radio services offer great value to the Memphis community.

In Memphis, we are able to receive the broadcast of KLOVE, which is a national broadcast service. KLOVE is the only radio broadcast that I listen to in the car. I am comfortable with my children hearing anything on this station.

KLOVE is the only station of its type in the Memphis area. KLOVE is the only FM inspirational music station in the Memphis area. Recently, our one other inspiration station, which was a local station, went off the air.

If KLOVE were to be displaced by an LPFM broadcaster, the Memphis area would be without an FM inspirational station.

In a mid-market such as Memphis, there is not enough local commercial support or private support for many broadcast types on the local level. Therefore, national broadcasts such as KLOVE provide a means for such markets to receive additional broadcast formats.

Accordingly, these broadcasts serve the public interest by affording our communities with broadcast varieties.

Please do not allow LPFM stations to interfere with my local KLOVE broadcast.

Thank you.
